ICE PORTER WORLD'S BEST AUTOMATED TOOL

for the Conversion of Unify/Gupta Code
and Reports to Microsoft.NET and HTML5

Our tool converts 100% of SAL code to clean and refactored C# or VB.NET source code.

Generated code is consistent, well organized, fully commented, readable and easily maintainable by all developers.

Old syntax is automatically refactored to modern Object Oriented style; forms are accurately regenerated; applications are split into shared assemblies.

Everything is supported:

- Multiple Inheritance: controls and classes
- COM/ActiveX, Windows Messages
- External Functions and Windows API
- Late Bind and When SQLError
- Menus, Forms, Dialogs and Custom Controls

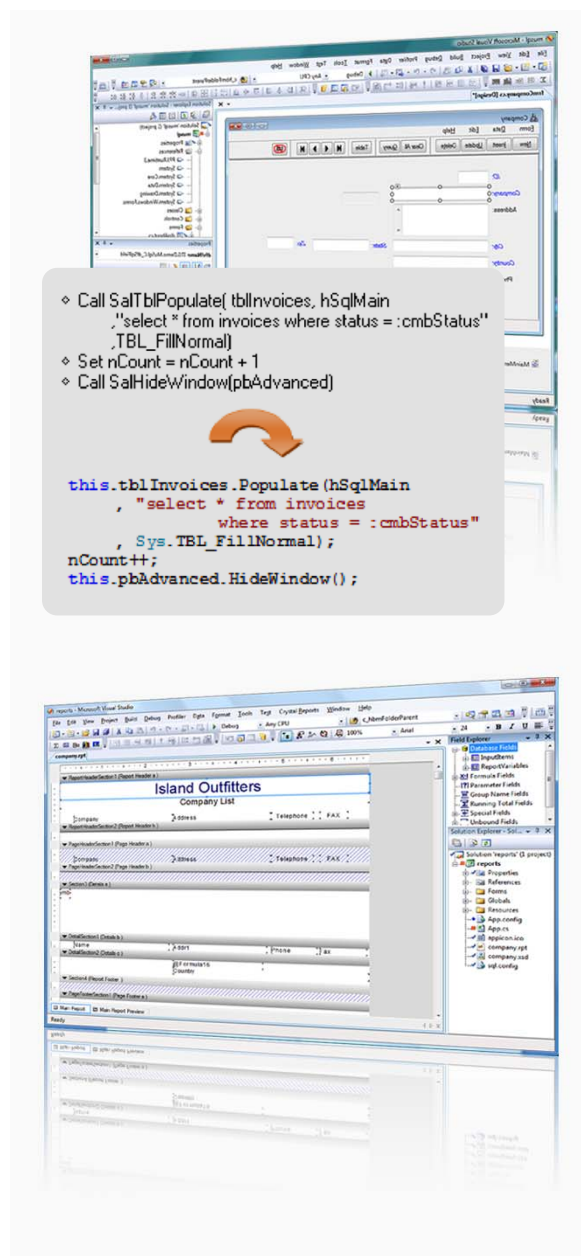

REPORTS CONVERSION

Ice Porter converts any Report Builder report to Crystal Report, Microsoft Reporting Services, List & Labels.

Generated reports are extremely accurate and can be edited directly in Visual Studio .NET. Fields Sizes, Colors, Formulas, Totals, Linked Fields, Conditional Display, Sections and Overlays are all supported.

SAVE UP TO 90% TIME/COST

Our advanced and widely used tools and technology will save you up to 90% of the time and cost of any alternative, including: full rewrite, other conversion tools, using Team Developer 6, and custom solutions.

LICENSING

Ice Porter™ is licensed only to Premium Porting partners with area exclusivity.

RISK?

Zero.

COST?

Less than the alternatives, including migrating to TD 5 or 6 and staying with SAL, a language designed in the previous century.

QUESTIONS?

We are available worldwide to answer any question you may have. We can arrange a personalized webinar for you and/or a meeting where we can show you a demo of your application migrated to .NET.

Visit www.iceteagroup.com for a Personalized Webinar.
